INDEPENDENT AUDITOR'S REPORT

Board of Trustees and Citizens' Oversight Committee
Savanna School District
Anaheim, California

We have audited the accompanying balance sheet of the Measure N General Obligation Bond Building Fund of the Savanna School District as of June 30, 2011, and the related statement of revenues, expenditures and changes in fund balance for the year then ended, as listed in the Table of Contents. These financial statements are the responsibility of the Savanna School District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts presented in the program statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall presentation. We believe that our audit provides a reasonable basis for our opinions.

As discussed in Note 1, the financial statements present only the individual Measure N General Obligation Bond Building Fund of the Savanna School District and are not intended to present fairly the financial position of the Savanna School District in conformity with generally accepted accounting principles.

In our opinion, the financial statements referred to in the first paragraph presents fairly, in all material respects, the financial position of the Measure N General Obligation Bond Building Fund of the Savanna School District as of June 30, 2011, and the results of its operations for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 9, 2011 on our consideration of Measure N General Obligation Bond Building Fund of the Savanna School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

SAVANNA SCHOOL DISTRICT
MEASURE N GENERAL OBLIGATION BOND BUILDING FUND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Savanna School District conform to accounting principles generally accepted in the United States of America as applicable to governments and to general practices within California school districts. The District accounts for its financial transactions in accordance with the policies and procedures of the Department of Education's California School Accounting Manual. The accounting policies of the District conform to accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board and by the American Institute of Certified Public Accountants. The following is a summary of the significant accounting policies:

Reporting Entity

On November 4, 2008, the District voters authorized up to \$24,935,000 in General Obligation Bonds (Measure N) for the purpose of financing the construction, repair and improvement of classrooms and school facilities throughout the District and pay certain costs of issuance of the bonds. The measure was approved by more than 55% of the vote. In response, an independent oversight committee to the District's Board of Trustees and Superintendent, the Citizens' Oversight Committee, was established. The Committee's oversight goals include: informing the public on the expenditures of Bond proceeds, reviewing expenditure reports to ensure that Bond proceeds are expended only for purposes set forth in Measure N, and ensuring compliance with certain other conditions relating to Measure N.

On May 13, 2009, the District issued General Obligation Bonds, 2008 Election, Series A, in the amount of \$7,499,721.

On May 13, 2009, the District issued 2009 General Obligation Bond Anticipation Notes in the amount of \$8,998,225.80, consisting of \$6,175,000 aggregate principal amount of current interest notes and \$2,823,225.80 aggregate initial principal amount of capital appreciation notes.

On May 2, 2010, the District issued 2010 General Obligation Bond Anticipation Notes in the amount of \$1,999,113.20, consisting of \$1,055,000 aggregate principal amount of current interest notes and \$944,113.20 aggregate initial principal amount of capital appreciation notes.

The bond proceeds and uses for the General Obligation Bonds, 2008 Election, Series A, 2009 General Obligation Bond Anticipation Notes and the 2010 General Obligation Bond Anticipation Notes are accounted for in the District's Building Fund. The statements presented are for the individual Measure N General Obligation Bond Building Fund and are not intended to be a complete presentation of the District's financial position or results of operations.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied.

SAVANNA SCHOOL DISTRICT
MEASURE N GENERAL OBLIGATION BOND BUILDING FUND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

The accompanying schedules are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or within 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Budgets and Budgetary Accounting

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all government funds. By State law, the District's Board of Trustees must adopt a final budget no later than July 1. A public hearing must be conducted to receive comments prior to adoption. The Board of Trustees satisfied these requirements.

These budgets are revised by the District's Board of Trustees during the year to give consideration to unanticipated income and expenditures. The final revised budget that is presented in the financial statements consists of the original Board approved documents plus all revisions.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. The District employs budget control by minor object and by individual appropriation accounts. Expenditures cannot legally exceed appropriations by major object account.

Accounting Estimates

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures (expenses) during the reporting period. Actual results could differ from those estimates.

Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid.

Fund Balance Reserves and Designations

The Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). This statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes.

GASB 54 requires the fund balance amounts to be properly reported within the fund balance categories below:

SAVANNA SCHOOL DISTRICT
 MEASURE N GENERAL OBLIGATION BOND BUILDING FUND
NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2011

- Nonspendable – This is fund balance associated with revolving cash funds, inventories and prepaids.
- Restricted – This includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation.
- Committed – This includes amounts that can be used only for the specific purposes determined by a formal action of the Board of Trustees (the District’s highest level of decision-making authority).
- Assigned – These funds are intended to be used by the government (District) for specific purposes but do not meet the criteria to be classified as restricted or committed.
- Unassigned – This is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications.

When fund balance resources are available for a specific purpose in multiple classifications, the District would use the most restrictive funds first.

Cash and Cash Equivalents

The District’s cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with County treasury balances for purposes of the Statement of Cash Flows.

2. CASH AND DEPOSITS

Cash at June 30, 2011, consisted of the following:

	Building Fund <hr style="width: 100%;"/>
Pooled Funds:	
Cash in County Treasury	\$ 6,023,610 <hr style="width: 100%;"/>

In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the Orange County Treasury as part of the Orange County Investment Pool (\$3,107,470,302 as of June 30, 2011). The County pools these funds with those of other districts in the County and invests the cash. These pooled funds are carried at cost which approximates market value. The District is considered to be an involuntary participant in the external investment pool. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The fair market value of this pool as of June 30, 2011, as provided by the pool sponsor, was \$3,113,466,499. The County is required by Government Code Section 53635 pursuant to Section 53601 to invest in time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer’s investment pool, bankers’ acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements.

SAVANNA SCHOOL DISTRICT
MEASURE N GENERAL OBLIGATION BOND BUILDING FUND
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury and in Money Market Mutual Fund U.S. Treasury Fund obligations. The District maintains an investment with the Orange County Investment Pool with a fair value of approximately \$6,035,233 and an amortized book value of \$6,023,610. The average weighted maturity for this pool is 342 days.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. The District does not have a formal investment policy that limits its investment choices other than the limitations of State law.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District does not place limits on the amount it may invest in any one issuer. At June 30, 2011, the District had no concentration of credit risk.

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. However, the California Government code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit.) The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105% of the secured deposits.

Cash balances held in banks and in revolving funds are insured up to \$250,000 by the Federal Depository Insurance Corporation (FDIC). All cash held by the financial institutions is fully insured or collateralized.

The County is authorized to deposit cash and invest excess funds by California Government Code Section 53648 et seq. The funds maintained by the County are either secured by federal depository insurance or are collateralized.

3. ACCOUNTS RECEIVABLE

Accounts receivable at June 30, 2011 consist of the following:

	BUILDING FUND
Accounts Receivable	
Interest	\$ 5,257

4. INTERFUND TRANSACTIONS

Interfund transactions are reported as either loans, services provided, reimbursements, or transfers. Loans are reported as interfund receivables and payables, as appropriate, and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers among governmental funds are netted as part of the reconciliation to the government-wide financial statements.

Interfund Receivables/Payables (Due To/Due From)

Individual fund interfund receivable and payable balances at June 30, 2011, are as follows:

(November 4, 2008):**

"In order to construct school facilities, and provide for supporting infrastructure at the existing school site of the Savanna Elementary School District, and in so doing increase health, safety, welfare and educational effectiveness of classrooms for students, shall the Savanna Elementary School District be authorized to issue Bonds in an amount not to exceed \$24,935,000, including the furnishing and equipping of school facilities or the acquisition or lease of real property for schools and school facilities listed in Attachment "1" on file at the District office and herein incorporated, which Bonds shall be issued for a term not to exceed the applicable statutory maximum, which is currently twenty-five (25) years in the case of bonds issued under the authority of the Education Code and forty (40) years in the case of bonds issued under the authority of the Government Code, at an interest rate below the legal maximum, and which Bonds shall be subject to the following provisions:

- A. That proceeds of the Bonds shall be used only for the construction of school facilities and supporting infrastructure, including the furnishing and equipping of school facilities or the acquisition or lease of real property for school facilities pursuant to California Constitution Article XIII A, Section 1(b)(3) and further that the proceeds of the Bonds shall be used only for the purposes specified in California Constitution Article XIII A, Section 1(b)(3) (as amended by Proposition 39) and not for any other purpose, including teacher and non-construction related administrator salaries and any other school operating expenses.
- B. That a list of the specific school facilities projects to be funded with the proceeds of the Bonds is attached hereto as Attachment "1" and, based upon the adoption of this Resolution, this Board of Trustees hereby certifies that it has evaluated safety, class size reduction and information technology needs in developing the school facilities listed in Attachment "1".
- C. That the Board of Trustees of the District shall conduct an annual, independent performance audit to insure that the proceeds from the sale of the Bonds have been expended only on the specific projects listed in this bond proposition.
- D. That the Board of Trustees of the District shall conduct an annual, independent financial audit of the proceeds from the sale of the Bonds until all of those proceeds have been expended for the school facilities projects identified herein.
- E. That the Board of Trustees of the District will appoint a citizens' oversight committee and conduct annual independent audits to assure that the Bond proceeds are spent only on school and classroom improvements and for no other purposes?

Such bond proposition is also for the purpose of making the Savanna Elementary School District eligible for State matching funds."

- Remove and mitigate hazardous materials (asbestos, lead, PCB, mold, mildew, etc.) where necessary.
- Address unforeseen conditions revealed by construction/modernization such as plumbing, or gas line breaks, dry rot, termite damage, and/or seismic structural repairs.
- Improve schools as required to comply with existing building codes and state/federal requirements, including access requirements of the Americans with Disabilities Act.
- Provide adequate furniture and equipment for all classrooms, and spaces to be newly constructed or reconstructed, including up to date/modern classroom learning technology, computer and science equipment and book storage.
- Acquisition of any of the facilities on the Project List through temporary lease or lease-purchase arrangements, or execute purchase option under lease for any of these authorized facilities.
- Necessary site preparation/restoration in connection with renovation or remodeling, including ingress and egress, removing, replacing, or installing irrigation, utility lines, trees and landscaping, relocating fire access roads, and acquiring any necessary easements, licenses, or rights of way to property.
- If the Board of Trustees determines that replacement is more economical than rehabilitation or renovation of existing classrooms/school facilities, in those particular cases replacement/new construction will be explored/pursued.
- Provide temporary (interim) classrooms and other school facilities as needed to accommodate students and school functions displaced during construction.

DISTRICT WIDE:

- Upgrade or replace District-wide server and related technology equipment and infrastructure.

Project Costs for Furnishings and Equipment

Project Costs for furnishings and equipment for some or all of the within-identified District campuses may include, but are not limited to, some or all of the following: security, safety and communication systems and equipment, desks and tables; window and floor coverings (including tiles and carpeting); computers and computer systems, media recording and presentation equipment, including, but not limited to, audio systems, kitchen equipment, improvements and furnishings; science laboratory equipment; and/or other electronic equipment and systems.

Project costs for the above-referenced projects may include installation costs, engineering and design costs, project management costs, state or local costs or expenses involving design, planning, environmental review(s) and proceedings, construction and completion of the aforementioned facilities projects, direct legal costs and related costs. Project costs may also include the payment or prepayment of existing or future lease payments and/or interim financing costs for lease of authorized facilities, property or buildings, prepayment of lease obligations for facilities purposes (including temporary classroom facilities) and payment of costs and expenses for interim financing of authorized facilities (including, but not limited to, financing delivery costs).

SAVANNA SCHOOL DISTRICT
MEASURE N GENERAL OBLIGATION BOND BUILDING FUND
BALLOT MEASURE – FULL TEXT

Allowable project costs also include: costs of issuing the bonds or other securities (as authorized under California law), informational distribution costs and election costs authorized under State law. Funding for these projects may come from this bond measure or other District resources as the school facilities needs arise.

In preparing the foregoing list, the Board of Trustees of the Savanna Elementary School District has evaluated safety, class size reduction and information technology needs. Approval of the District’s bond measure does not guarantee that all of the identified projects within this list will be funded beyond local funds generated by the bond measure and does not guarantee that the projects will be completed in any particular order. The District will also aggressively pursue funds from the State of California to complete facilities projects.

No Administrator Salaries. Proceeds from the sale of bonds authorized by this proposition shall be used only for the construction, acquisition, repair, renovation, rehabilitation, or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities as identified herein, and not for any other purpose, including teacher and administrator salaries and other operating expenses.

Bond Expenditure Accountability and Citizens’ Oversight Committee. The expenditure of bond funds on any of these projects is subject to strict accountability requirements required by law. These include:

- Annual financial audit by independent auditors.
- Annual performance audit by independent auditors.
- Expenditure of bond funds will be monitored on an ongoing basis by an independent Citizens’ Oversight Committee.

AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees and Citizens' Oversight Committee
Savanna School District
Anaheim, California

We have audited the accompanying financial statements of the Measure N General Obligation Bond Building Fund of the Savanna School District for the year ended June 30, 2011, and have issued our report thereon dated December 9, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Savanna School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or *material weaknesses*. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Measure N General Obligation Bond Building Fund of the Savanna School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of the Measure N Citizens' Oversight Committee, Board of Trustees, management, and taxpayers of the Savanna School District and is not intended to be and should not be used by anyone other than these specified parties.

AUDITOR'S REPORT ON STATE COMPLIANCE

Board of Trustees and Citizens' Oversight Committee
Savanna School District
Anaheim, California

We have audited the accompanying financial statements of the Measure N General Obligation Bond Building Fund of the Savanna School District (the District) for the fiscal year ended June 30, 2011. Our audit was made in accordance with auditing standards generally accepted in the United States of America; and the standards for financial and compliance audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with specified requirements.

The District's management is responsible for the District's compliance with laws and regulations. In connection with the audit referred to above, we selected and tested transactions and records to determine the District's compliance with the following requirements:

- Proceeds from the sale of the bonds are used only for the construction, reconstruction, rehabilitation or replacement of school facilities, including the furnishing and equipping of school facilities, or the acquisition or lease of real property for school facilities, and not for any other purpose, including teacher and administrator salaries and other school operating expenses.
- Proper bidding procedures have been observed/met.
- Measure N bond monies are used only on projects which were approved as part of the Measure N bond election.
