

Savanna School District Annual Developer Fee Report For the Fiscal Year Ending June 30, 2021

Background

Government Code Section 65995 and California Education Code Section 17620 allow school districts to levy fees on residential and commercial/industrial projects within a school district's boundaries. The District maintains a Capital Facilities Fund so that the collection and use of developer fees is accounted for separately from other activities.

Government Code Section 66006 requires that an annual report be prepared containing information pertaining to the collection and use of developer fees. This report must be made available to the public within 180 days of the close of the fiscal year, and then reviewed at the next regularly scheduled public board meeting not less than 15 days afterward.
